## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement filed January 7, 2005 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the last document (crossed out on the attached copy) has not been considered.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 18-36 are rejected under 35 U.S.C. 102(b) as being anticipated by Losey et al.

Losey et al. discloses a method of controlling the driving performance of a vehicle in which at least one vehicle component is monitored for flaws, comprising the steps of determining a flaw, determining or predicting an unstable driving condition and modifying a quantity influencing the transverse dynamics of the vehicle in dependence on the magnitude of the flaw when an unstable driving condition is determined or predicted. (Column 1, paragraph 9)

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bergerhoff et al., and Ries-Mueller teach similar methods.
